[Docket Number FRA-2013-0031]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letters dated May 18, 2023, and May 30, 2023, North Shore Railroad Company (NSHR) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 215 (Railroad Freight Car Safety Standards). FRA assigned the petition Docket Number FRA-2013-0031.

Specifically, NSHR requested an extension of a special approval pursuant to 49 CFR 215.203, *Restricted cars*, for one caboose, NSHR 61312, that is more than 50 years from the date of original construction. NSHR also requests relief from § 215.303, *Stenciling of restricted cars*, to preserve the caboose's historic appearance for operation in excursion, "VIP," and shipper service. In support of its request, NSHR states that the caboose will be operated at a maximum speed of 50 miles per hour and that in the ten years the caboose has operated under the special approval, NSHR has "found no adverse effects on the safety of operations."

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.
